SUBJECT: ARCO ENVIRONMENTAL REMEDIATION, LLC, ACCEPTANCE OF REPORT,
CONTROL NO. 579971

Dear Ms. Kezos:

This is in reference to your letter dated March 14, 2013, providing the "Radioisotopes Powered Cardiac Pacemaker Program Technical Memorandum Report XLVI on the Status of the Clinical Studies of the Nuclear Pacemaker Model NU-5 from the ARCO Medical Products Company, A Subsidiary of Atlantic Richfield" in accordance with License Condition No. 12 of NRC License No. SNM-1993. We have reviewed the report and have one administrative comment. In the future, please submit the required report with patient names redacted as this information can be considered personally identifiable information (PII). No further correspondence on this matter is required at this time.

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

Your cooperation is appreciated.

C. Kezos
